I. INTRODUCTION

Genders refers to the socially constructed roles, behaviours, expressions and identities of girls, women, men, and gender diverses.

Sexual orientations refers to an individuals enduring physical romantic and/or emotional attractions to another person whereas gender identity refers to one's internal sense of being male, female, or something else. Some key types includes are as follows.

A. Gay:

Gay describes a person's who is attracted emotionally and/or physically to someone of the same gender.

The term can be use for man, women or individuals who identifies as non-binary.

Gender identity: Gender identity describes a person's internal identification as male, female, something in between or something other than the conventional gender options.

B. Gender Neutral:

Gender neutral describes not identity as being of a particular Gender. It can apply to several different aspects of life.

Gray Sexuality: Gray sexuality describes an individual's who experiences sexual attractions at a lower intensity or very rarely.

The term drag queen refers generally to man who dress as women for the purpose of entertaining others at bars, clubs, or other events.

The term drag kings refers to women who dress as men for the purpose of entertaining others at bars, clubs or other events.

Gray sexual are members of the asexual community.

Intersex: intersex describes a person born with sex characteristic that are not typical for male or female bodies. Sex characteristics are physical features relating to sex including chromosomes, genital, hormones and other reproductive anatomy as well as features that emerge from puberty.

II. LESBIAN

Lesbian describes a women who is attracted emotionally and/or physically to other women.

A. LGBTQ+:

LGBTQ is an umbrella term that includes people of various sexual orientations and gender identities.

It encompasses individuals who identify as lesbian, gay, bisexuals, Trans, qeer or questioning with the plus sign representing other identities.

B. Pansexuality:

Pansexuality describes a persons who is attracted to or has the potential to be attracted to people of any gender or of gender identity.

C. Transgender and Categories:

Transitioning from one gender to another is a complex process that may involve transition to a gender that is neither traditionally male nore female.

Transgender describes a person's whose gender identity and/or gender expression don't match their assign sex at birth.

Transgender people usually label their sexual orientations using their gender as a reference.

Transgender people may be straight, lesbian, gay, bisexual or qeer.

Trans man describes a person's who was assigned a female sex at birth but identifies as male.

Transgender people may also have additional identities that may affect the types of discrimination they experience.

Many Transgender people are the targets of hate crimes they are also the victim of subtle discrimination which include everything from glances or glances of disapproval or discomfort to invasive questions about their body parts.

Transgender people experience their Transgender identity in a variety of ways and may may become aware of their Transgender identity at any age.
